

*The International Workshop on*  
**Harbour, Maritime and**  
**Multimodal Logistics**  
**Modelling & Simulation**

**HMS**  
**2003**

*EDITED BY*  
**Yuri Merkuryev**  
**Agostino G. Bruzzone**  
**Galina Merkuryeva**  
**Leonid Novitsky**  
**Edward Williams**

*September 18-20, 2003*  
**Riga, Latvia**  
**Riga Technical University**

*Printed in Riga, Latvia, August 2003*

*ISBN 9984-32-547-4*

# TABLE OF CONTENTS

<b>PLENARY PAPERS.....</b>	<b>15</b>
<b>Complex Systems Design: A Simulation Modelling Approach</b> Jerzy W. Rozenblit.....	17
<b>Actual and Future Options of Simulation and Optimisation in Manufacturing, Organisation and Logistics</b> Thomas Wiedemann and Wilfried Krug.....	21
<b>MARITIME ENVIRONMENT I.....</b>	<b>31</b>
<b>Virtual Reality Support for COPPE/UFRJ Ocean Basin</b> Gerson Gomes Cunha, Maria Célia Santos Lopes and Luiz Landau.....	33
<b>Modelling the Influence of Human Resources and Investments in North Adriatic Ports Area over Oligopoly Position of These Ports</b> Marija Bogataj, Ludvik Bogataj and Robert Vodopivec.....	40
<b>Policies and Infrastructures for Pollution Containment Management</b> Agostino Bruzzone, Chiara Briano, Marina Massei and Simone Viazzo.....	46
<b>The TSP Statistics and Total Quality Management and Shipping</b> William Conley.....	53
<b>Cyclicity in the Oil Tanker Shipping Industry</b> Albert W. Veenstra and Marcel W. Ludema.....	58
<b>Multi-Level Supply Chain Dependencies</b> Marcel W. Ludema.....	65
<b>MARITIME ENVIRONMENT II.....</b>	<b>77</b>
<b>Extending an Object-Oriented Discrete Event Simulation Framework in Java for Harbor Logistics</b> Bernd Page and Eugenia Neufeld.....	79
<b>Using Simulation for Chemical Bulk Loading/Unloading Operation</b> Roberto Revetria.....	86
<b>HLA Simulation for Operation and Analysis and Component Design of Naval Platforms</b> Agostino Bruzzone, Roberto Revetria, Simone Simeoni, Attilio Rocca and Matteo Brandolini.....	92
<b>A Less-Flexibility - First Heuristic for the Placement of Inland Vessels in a Lock</b> Gerrit K. Janssens and Carlo Theunissen.....	98
<b>Economical Analysis of a Container Terminal Simulation</b> Albert W. Veenstra, Niels Lang and Bastiaan van de Rakt.....	107

<b>TRANSPORT LOGISTICS</b> .....	115
<b>Hybrid Real-Time Simulation of an AGV Fleet</b> T. Guasch, M.A. Piera, J. Montero and J. Casanovas.....	117
<b>MKBF, MKTR: New Indexes for the Maintenance Management in Transport</b> Domenico Falcone, Alessandro Silvestri and Vincenzo Duraccio.....	122
<b>Airline Seat Inventory Control</b> Edgars K. Vasermanis, Nicholas A. Nechval and Konstantin N. Nechval.....	128
<b>Improving Logistical Procedure within a Hospital Inpatient Pharmacy</b> Edward J. Williams and Vanessa Harp.....	137
<b>The Algorithm of Negotiation for Software Agents for the Open Conveyor Schedule in Logistics Tasks</b> Anatoly Levchenkov and Mikhail Gorobetz.....	142
<b>PRODUCTION AND LOGISTICS</b> .....	149
<b>Application of Modelling and Simulation in Analysis and Design of Manufacturing Systems</b> Edward Chlebus and Arkadiusz Kowalski.....	151
<b>Development of Computer Simulation Systems for Production Processes in Metallurgy</b> Stanislav A. Vlasov.....	162
<b>Wood Production Industry: Integrated Systems Approach and Applications</b> Edgars Palacis.....	167
<b>Simulation Based Scheduling for Batch Anodising Processes</b> Galina Merkuryeva, Nigel Shires, Richard Morisson and Mark de Reuver.....	170
<b>Simulation and Knowledge Based Scheduling of Manufacturing Operations</b> Janis Grabis and Girts Vulfs.....	177
<b>Simulation of a Mechanism for the Active Dimension Control and Workpiece Support Device in Machining</b> Andrejus Henrikas Marcinkevicius.....	183
<b>SIMULATION MODELLING METHODOLOGY AND ENVIRONMENT I</b> .....	189
<b>Systematics of Nested Simulation</b> Eugene Kindler, Ivan Krivy and Alain Tanguy.....	191
<b>Fuzzy Reverse Approach to Simulation Metamodelling</b> Galina Merkuryeva.....	196
<b>Object-Oriented Reflective Simulation of Transitive Systems</b> Pascal Berruet, Thierry Coudert and Eugene Kindler.....	202
<b>Structural Models: Insight into Common and Distinctive Qualities</b> Zigurds Markovitch and Ieva Markovitcha.....	207
<b>Mathematical Interpretation of Associative Modelling Problems</b> Andrejs Matvejevs and Girts Vulfs.....	214

<b>SIMULATION MODELLING METHODOLOGY AND ENVIRONMENT II.....</b>	<b>219</b>
<b>Towards Logistics Systems Parameter Optimisation through the Use of Response Surfaces</b> Katrien Ramaekers, Gerrit K. Janssens and Hendrik Van Landeghem.....	<b>221</b>
<b>Shortest-Length Prediction Intervals for Future Outcomes</b> Nicholas A. Nechval, Konstantin N. Nechval and Edgars K. Vasermanis.....	<b>225</b>
<b>Effective Access to Historical Data in Temporal Databases</b> Eugene Kopytov and Vasilij Demidovs.....	<b>235</b>
<b>A Virtual 3D Environment for Logistics Modelling</b> Arnis Lektauers.....	<b>242</b>
<b>TRAINING AND EDUCATION .....</b>	<b>249</b>
<b>LOGIS Network for Knowledge Dissemination in Logistics Information Systems</b> Egils Ginters and Liene Krecere.....	<b>251</b>
<b>Research and Education in Freight Transport Logistics in Latvia</b> Andris Gutmanis, Igor Kabashkin and Yuri Merkurjev.....	<b>256</b>
<b>Training and Education of Seafarers</b> Juris Cimanskis, Valdis Priednieks, Aleksandrs – Modris Pavlovskis, Andris Unbedahs and Janis Kokars.....	<b>260</b>
<b>Development of Distance Learning Activities at the Polish Centre of Competence for Logistics</b> Piotr Cyplik, Stanislaw Krzyzaniak and Krzysztof Szymanski.....	<b>264</b>
<b>Simulation in a Problem-Based e-Learning Environment for Logistics</b> Gaby Neumann.....	<b>268</b>
<b>Support of Container Terminal Design using Simulation Models Jointly</b> Edwin C. Valentin and Krzysztof Amborski.....	<b>277</b>
<b>SITA2000 – Research System of Models with Discrete Events for Educational and Practical Purposes</b> Janis Sedols and Madars Rikards.....	<b>284</b>
<b>SPECIAL BALTPORTS-IT SESSION.....</b>	<b>287</b>
<b>Introduction to BALTPORTS-IT: Applications of Simulation and IT-Solutions in the Baltic Port Areas</b> Eberhard Bluemel and Leonid Novitsky.....	<b>289</b>
<b>Simulation of Logistics Processes at the Baltic Container Terminal: Model Validation and Application</b> Yuri Merkurjev, Vladimir Bardachenko, Andrey Solomennikov and Fred Kamperman.....	<b>294</b>
<b>The Development of a Generic Simulation System for Ports</b> Rahila Yazdani, Felix A. Schmidt and George Wilkie.....	<b>303</b>
<b>Simulation-Based Approach to the Analysis of Logistics Processes at Gdansk Container Terminal</b> Andrzej Dzielinski, Krzysztof Amborski, Przemyslaw Kowalczyk and Jerzy Sukiennik.....	<b>311</b>

<b>Web-Based and Distributed Simulation for Maritime Applications</b>	
Marco Schumann, Bernd Gebert and Thomas Schulze.....	319
<b>A Thorny Problem or Common Sense: Evaluating the Efficiency of a Port</b>	
Felix A. Schmidt, Rahila Yazdani and Fred Kamperman.....	327
<b>The Use of Simulation Models in Maritime Information Systems</b>	
Henrikas Pranevicius and Vytautas Pilkauskas.....	338
<b>Modelling of Marine Insurance Business Processes</b>	
L. Novitsky, M. Uhanova, E. Viktorova and V.Rogozin.....	345
<b>Using of LISTechnology for Business Process Analysis at the Transshipment Company JSC Ventamonjaks</b>	
Egils Ginters and Laimonis Strujevichs.....	351
<b>Qualitative Analysis of Port Organisational Structure Characteristics</b>	
Janis Grundspenkis and Larisa Isajeva.....	357
<b>SPECIAL BALTECH SESSION.....</b>	<b>365</b>
<b>The Use of Software Agents in Power Energy Logistics</b>	
Nadezhda Kunicina, Anatoly Levchenkov and Leonids Ribickis.....	367
<b>Simulation-Based Design of Supply Chains with SIMFLEX</b>	
Yuri Merkurjev, Oksana Burska and John Sedej.....	372
<b>Transformation of Aggregate Specifications to the Predicate Logic Models</b>	
Henrikas Pranevicius, Regina Miseviciene and Vilius Misevicius.....	378
<b>Optimal Decomposition of Large-Scale Systems</b>	
Tiit Riismaa and Otu Vaarmann.....	385
<b>Intelligent Geoinformation Systems for Modelling and Simulation</b>	
Alexander V. Smirnov, Ruslan P. Sorokin and Sergey S.Shaida.....	395
