MATERIALS ENGINEERING & BALTRIB *2001

Materials of the X-th International Baltic Conference

September 27-28, Jurmala, Latvia

Riga, 2001

Organizing Committee

J. GRABIS - Chairman

J. KRASTIŅŠ - Secretary

M. DZENIS

U. CIELĒNS

G. HEIDEMANE

V. MIRONOVŠ

E. JUZENAS

Scientific Committee

Prof. I. KNĒTS (Latvia)

Prof. P. AMBROZA (Lithuania)

Prof. S. BOČKUS (Lithuania)

Prof. V. GRIVICKAS (Lithuania)

Prof. P. KULU (Estonia)

Prof. J. KŪBARSEPP (Estonia)

Prof. T. MILLERS (Latvia)

Prof. E. MELLIKOV (Estonia)

Prof. J. PADGURSKAS (Lithuania)

Prof. T. PAPPEL (Estonia)

Prof. L. RIBICKIS (Latvia)

Prof. K. ROCĒNS (Latvia)

Prof. J. VILYS (Lithuania)

**This conference is supported by
the Latvian Council of Science**

Proceedings of X-th International Baltic Conference "Materials Engineering & Balttrib *2001"

Editors: Dr.habil. J. Grabis, Dr. J. Krastiņš

27-28 September 2001, Jūrmala, Latvia

Katalogs

CONTENTS

Metallic and ceramic powders

H. Käerdi, V. Mikli, P. Kulu, O. Velgosová, I. Kohútek, M. Besterci.....	3
Characterization of morphology of hardmetal powder particles	
I. Schulz, M. Herrmann, Chr. Schubert.....	8
Application of plasmachemical powder to the development of silicon nitride materials with low friction coefficient	
S. Ordanyan, A. Vasilyeva, I. Zalite, N. Zhilinska.....	13
Behavior of nanodisperse oxide powders during the sintering process	
M. Viljus, R. Traksmaa, S. Letunovits, J. Pirso.....	18
Synthesis of TiC powders by mechanical activation.	
L. Chera, E. Palcevskis, M. Berzins, A, Lipe.....	22
The influence of some surfactants on obtaining concentrated aqueous suspensions of plasma-processed fine alumina	
L. Kuznetsova, J. Grabis, G. Heidemane.....	27
Nanosized YSZ powders prepared by chemical co-precipitation combined with azeotropic distillation	

Metallic materials

S. Cananau.....	33
A study of the spur gear dynamic modelisation	
S. Bočkus, V. Dagys, A. Venckūnas, G. Žaldarys.....	37
The research of density of cast iron	
L. Kommel, R. Veinthal.....	41
The investigation of advanced construction materials and manufacturing technologies	
A. Jutas, J. Padgurskas, R. Rukuiza.....	46
Influence of fluoroligomers on the cyclic fatigue of structural steel	
R. Leskauskaitė, J. Žvinys.....	51
Self-deformations of high chromium steel during heat treatment	

H. Klaasen, J. Kübarsepp.....	55
Reliability characteristics of sinterhipped hardmetals	
A. Laansoo, H. Klaasen, J. Kübarsepp, G. Surzhenkov.....	58
Diffusion bonding hardmetals with steels	
L. Kommel, P. Peetsalu, R. Veinthal.....	62
Evolution of microstructure and properties in Ti-alloys during rapid electrocontact heating with SPD	
L. Kommel.....	67
The plastic flow of alloys in zone of angular deformation by electroupsetting forging	
R. Kandrotaitė-Janutienė, J. Žvinys.....	72
Steel kinetic plasticity during tempering	
J. Vilys, V. Čiuplys, V. Kvedaras.....	76
Improvement of steel properties by ion implantation	
Non-metallic materials	
J. Grabis, Dz. Jankoviča, Dz. Rašmane, A. Krūmiņa.....	81
Nanosized Si ₃ N ₄ -SiC based particulate nanocomposites	
E. Palcevskis, U. Reichel, A. Lipe.....	87
Sintering of nanosized plasma-processed Al ₂ O ₃ powders	
S.S. Ordanyan, I. Zalite, T.E. Andronova, M.A. Vladimirova, I.B. Pantelejev.....	92
Hard alloys on the basis of WC-Co with the additives of nanodisperse TiN	
A. Orlov.....	97
Sintering of nanosized MoSi ₂ powders	
Z. Kadolich, L. Pinchuk, E. Tsvetkova, A. Anisov.....	102
Material for endoprostheses	
J. Shvarts, R. Belousova.....	107
Borates as perspective flame retardant additives to various materials	
N. Jevgrafova, T. Pappel.....	111
Solid particle erosion of ceramics at high and room temperatures	

A. Dindune, Z. Kanepe, J. Ronis, E. Kazakevičius, A. Kežionis, A. Orliukas.....	115
Synthesis, structure and electric properties of solid electrolyte Li _{1,5} Ge _{1,5} Al _{0,5} (PO ₄) ₃ and Li _{1,3} Ge _{1,7} Cr _{0,3} (PO ₄) ₃ ceramics	
J. Zicans, M. Kalnins, A.K. Bledzki, I. Jablonskis, R. Merijs Meri.....	120
Tensile properties of irradiated binary heterogeneous blends based on poly (ethylene terphthalate) and polyethylene	

Coatings

R. Levinskas.....	123
Analysis of influence of fire-retardant coatings on properties of cable insulation material	
M. Garbiak, B. Piekarski, J. Kubicki.....	125
Anti-carburisation coatings in high-alloyed Ni-Cr cast steel	
I. Vītiņa, A. Knipele, J. Ašaks, P. Pultraks, V. Rubene, A. Krūmiņa, M. Lubāne.....	130
Electrodeposition and properties of thin layers of Co-W alloy amorphous to X-Ray diffraction, and composite (Co-W)-hydroxylapatite to modify surfaces of materials	
K. Brinkiene, R. Kezelis.....	138
Microstructural analysis of plasma sprayed zirconia thin films	
A. Ilyuschenko, A. Shevtsov, V. Smurov, M. Ignatiev, E. Covaliov.....	142
Aspects of friction surfaces failure and prospects of strengthening of tribocouplings by gas-thermal spraying of composite self-lubricating coatings	
P. Kulu, T. Pihl, K. Tammjärv, P. Vuoristo.....	148
Formation of microstructure of spray-fused powder coatings	
R. Bendikienė, S. Chodočinskas.....	154
Making and testing of strengthened layer	
A. Zunda, V. Jankauskas, A. Andriusis.....	159
Reinforcement of electric pulse sprayed coatings	
H. Lille, J. Kōo, P. Kulu, T. Pihl.....	164
Residual stresses in some thermal sprayed coatings	

Recycling

A. Popov, T. Borisova, S. Timofeyeva.....	169
Some possibilities of the drop-volume method for determining the extracting and colloidal properties of the dicyclohexane-18-crown-6 complex-forming extractant	

Friction and wear

N. P. Barykin, I.R. Aslanian.....	177
Surface plastic deformation of antifriction materials	
K. Förster, V. Wollesen.....	182
Analysis of radial lip seal behavior at low pressure	
P. Kulu, S. Zimakov, R. Veinthal.....	187
Impact erosive wear resistance of thermal sprayed WC-Co coatings	
M. Viljus, J. Pirso.....	193
Erosion – corrosion wear of WC-Co hardmetals in solid-liquid mixtures	
P. Ambroza, L. Kuliavas, C. Kisieliauskas.....	198
Effect of hardness on wear resistance of overlaying weldings	
L. Kommel, E. Kimmari, P. Peetsalu.....	202
The influence of binder phase status on the wear resistance of boron carbide cermet by friction	
J. Kübarsepp, H. Klaasen, J.Pirso.....	207
Wear characteristics of TiC-base cermets	
J. Padgurskas, R. Rukuiza.....	212
Research of coats realising non-wear phenomena in friction pairs	

Lubrication and rheology

A.V. Radulescu.....	217
Theoretical study of the damping properties of the non-newtonian fluids	
E. Juzėnas, R. Jonuėsas.....	222
Modelling of steam turbine sliding bearings construction and exploitation parameter's influence on vibroactivity	

N.P. Barykin, A. Kh. Valeeva.....	226
Influence of rheological properties of the near-surface layer on energy-force parameters and damage in process of deformation	
A.N. Abramov, V.I. Semenov, G.G. Tyulenev, V.Yu. Sholom, A.Kh. Valeeva.....	231
Method of choice of lubricants for process of wet drawing brass-coated wires	
List of authors.....	235
Contents.....	237
