MESSAGE FROM THE CONFERENCE CHAIRMAN

On behalf of the Power Electronic and Motion Control Council, the Organizing Committee and the EPE Association I have a great pleasure to welcome you to the 11th Power Electronic and Motion Control Conference, EPE-PEMC 2004.

It is an excellent opportunity to meet scientists and engineers from all over the world, to exchange new ideas and results with colleagues, to provide presentations, discussions, lectures, to attract more young scientists from different countries into research movement.

During the three days the Conference offers you 6 keynote presentations, over 100 lecture presentations, more than 550 dialogue presentations as well as the tutorials which are organized in the preceding days. Exhibitions also are foreseen at the Conference.

In contrast to the previous Conferences held in Central European countries, this Conference is taking place on the eastern coast of the Baltic Sea, in the capital of Latvia, one of the Baltic States, in Riga. It is one of the oldest cities in Europe as well as one of the most beautiful. Practically all architectural styles are in an enchanting harmony in Old Riga. Because of its silence and calmness it is the best place for rest and research. But at the same time Riga is a modern city having all opportunities for organization of big conferences. It is very accessible by an international airport linked with the main European towns, by motorways and railways. Riga and Latvia as a whole are rich with natural and folklore beauty, marvelous old cities and fresh sea air. Riga will ensure a charming environment to accommodate a conference like EPE-PEMC 2004.

I hope you will enjoy your stay in Riga, at EPE-PEMC 2004 Conference.

Sincerely Yours,

A handwritten signature in black ink, appearing to read 'Leonids Ribickis'. The signature is stylized and fluid, with a long horizontal stroke extending to the right.

Leonids Ribickis
Conference General Chairman,
Vice Rector for Science of Riga Technical University, LATVIA
