# **INTRODUCTION TO ONTOLOGY ENGINEERING**

**Methodical Manual**

**RTU Press**

**Riga 2014**

# TABLE OF CONTENTS

- 1. ONTOLOGY ENGINEERING ..... 13
  - 1.1. Definition of Ontology ..... 13
  - 1.2. Formal Definition of Ontology ..... 14
  - 1.3. Benefits of Ontology Usage ..... 15
  - 1.4. What is Not an Ontology? ..... 16
  - 1.5. Data, Information and Knowledge ..... 18
  
- 2. OLD AND NEW APPROACHES TO KNOWLEDGE REPRESENTATION ...20
  - 2.1. Differences Between Ontologies and Database Schemas..... 20
  - 2.2. Object-oriented Modeling Versus Ontology-based Approach ..... 25
  - 2.3. What is a Semantic Network? ..... 29
  - 2.4. Semantic Network Versus Ontology ..... 39
  
- 3. LEVELS OF FORMALISATION ..... 42
  - 3.1. What is Taxonomy? ..... 42
  - 3.2. Organizing Your Knowledge ..... 46
  - 3.3. Lightweight Ontology, Heavyweight Ontology ..... 50
  - 3.4. Axioms in Ontology Descriptions..... 51
  - 3.5. High Quality Formal Ontologies ..... 53
  
- 4. LEVELS OF MODULARIZATION ..... 55
  - 4.1. Top-level or Upper-level Ontologies ..... 55
  - 4.2. Domain Ontology ..... 58
  - 4.3. Task Ontology ..... 58
  - 4.4. Task Ontology and Domain Ontology Interaction ..... 59
  - 4.5. Application Ontologies ..... 61

<b>5. ONTOLOGY CREATION APPROACHES .....</b>	<b>62</b>
5.1. Manual Construction.....	62
5.2. Automatic Ontology Creation Approach.....	63
5.3. Semi-automatic Ontology Creation Approach.....	65
5.4. Top-down Ontology .....	67
5.5. Bottom-up Ontology .....	70
5.6. Middle-out Approach .....	72
<b>6. ONTOLOGY DEVELOPMENT LIFE CYCLE .....</b>	<b>75</b>
6.1. Principal Concepts.....	75
6.2. Specification.....	77
6.3. Knowledge Acquisition.....	80
6.4. Conceptualization.....	81
6.5. Integration .....	83
6.6. Implementation.....	85
6.7. Evaluation.....	85
6.8. Documentation .....	86
<b>7. LANGUAGES FOR ONTOLOGY REPRESENTATION .....</b>	<b>87</b>
7.1. XML – Extensible Markup Language .....	87
7.2. XML Schema .....	88
7.3. RDF (Resource Description Framework) .....	90
7.4. RDF Schema.....	92
7.5. Querying RDFS.....	94
7.6. OWL (Web Ontology Language) .....	96
<b>8. APPROACHES TO MODELING ONTOLOGIES .....</b>	<b>99</b>
8.1. Frame-based Ontology .....	99
8.2. Representation of ontologies in RDF Schemas .....	106
8.3. Using UML – Unified Modeling Language.....	107

<b>9. ONTOLOGY MANAGEMENT</b> .....	118
9.1. Ontology Matching .....	118
9.2. Ontology Mapping .....	121
9.3. Ontology Changes .....	126
9.4. Terminology of Ontology Management .....	128
<b>10. ONTOLOGY SUPPORT BUILDING TOOLS</b> .....	130
10.1. Protégé – 2000.....	130
10.2. OilEd .....	132
10.3. Apollo.....	133
10.4. RDF edt .....	135
10.5. Ontolingua.....	136
10.6. OntoEdit .....	137
10.7. WebODE .....	140
<b>11. ONTOLOGY EVALUATION TECHNIQUES</b> .....	144
11.1. A Classification of Ontology Evaluation Approaches.....	144
11.2. Levels of Evaluation .....	145
11.3. Evaluation on the Lexical/Vocabulary and Concept/Data Level .....	146
11.4. Evaluation of Taxonomic and Other Semantic Relations.....	147
11.5. Context-level Evaluation.....	149
11.6. Application-based Evaluation .....	149
11.7. Data-driven Evaluation .....	150
11.8. Multiple-criteria Approaches .....	151
11.9. Comparison of Approaches to Ontology Evaluation .....	152
<b>12. ONTOLOGY ENGINEERING APPLICATIONS</b> .....	153
12.1. Ontologies in Information Systems.....	153
12.2. Ontology and Semantic Web .....	155
12.3. Problem-solving Methods and Ontologies.....	157

<b>13. CASE STUDY. ONTOLOGY BUILDING PROCESS:</b>	
<b>THE WINE DOMAIN .....</b>	<b>161</b>
13.1. The Wine Domain .....	161
13.2. Ontology Building Process .....	166
13.3. Formalization .....	170
<b>14. CASE STUDY. ONTOLOGY CONSTRUCTION: COOKING DOMAIN</b>	
<b>ONTOLOGY MANAGEMENT .....</b>	<b>174</b>
14.1. Food Concepts.....	175
14.2. Kitchen Utensils .....	178
14.3. Actions .....	179
14.4. Recipes .....	181
14.5. Auxiliary Modules.....	185
<b>CONCLUSIONS .....</b>	<b>189</b>
<b>REFERENCES .....</b>	<b>190</b>
