Riga 2017

TABLE OF CONTENTS

<i>Eduard Latosov, Anna Volkova, Andres Siirde, Jarek Kurnitski, Martin Thalfeldt</i> Methodological Approach to Determining the Effect of Parallel Energy Consumption on District Heating System	5
<i>Alok Dhaundiyal, Pramod Tewari</i> Kinetic Parameters for the Thermal Decomposition of Forest Waste Using Distributed Activation Energy Model (DAEM)	15
<i>Lauma Zihare, Dagnija Blumberga</i> Market Opportunities for Cellulose Products from Combined Renewable Resources	33
<i>Aiman Albatayneh, Dariusz Alterman, Adrian Page, Behdad Moghtaderi</i> The Significance of Temperature Based Approach Over the Energy Based Approaches in the Buildings Thermal Assessment	39
<i>Arturs Veinbergs, Ainis Lagzdins, Viesturs Jansons, Kaspars Abramenko, Ritvars Sudars</i> Discharge and Nitrogen Transfer Modelling in the Berze River: A HYPE Setup and Calibration	51
<i>Bujar Bajcinovci</i> Environment Quality: Impact from Traffic, Power Plant and Land Morphology, a Case Study of Prishtina	65
