Transport and Aerospace Engineering

Scientific Journal of
Riga Technical University

Editor-in-Chief Aleksandrs Urbahs

2017/5

RTU Press
Riga 2017

TABLE OF CONTENTS

<i>A. Ambrozik, D. Kurczyński, P. Łagowski</i> Method for Determining Volumetric Efficiency and Its Experimental Validation.....	5
<i>V. Kharchenko, A. Grekhov, V. Kondratiuk, K. Nagorna</i> ADS-B Satellite Communication Channel Based on IEEE 802.16 Standard	18
<i>A. Urbahs, M. Urbaha, K. Carjova</i> Aerodynamic Research of the Experimental Prototype of the Variable Geometry Wind Turbine.....	28
<i>A. Arshad, L. Qiushi</i> Comparison of Different Stall Conditions in Axial Flow Compressor Using Analytic Wavelet Transform	35
<i>S. Andersone, V. Šestakovs</i> Some Theoretical Aspects of the Air Traffic Controller Training Group Formation, in Accordance to Obtain a Certain Level of Professional Qualities.....	43
<i>N. Glīzde</i> Wing and Engine Sizing by Using the Matching Plot Technique	48
<i>V. Kondratiuk, E. Kovalevskiy, S. Ilnytska</i> Integrated Positioning System With Restricted Access to Navigation Satellite Signals.....	60
<i>S. H. Gislason, R. Bogdane, I. Vasiļevska-Nesbita</i> Fatigue Monitoring Tool for Airline Operators (FMT).....	67
<i>A. Urbahs, S. Das, S. K. Vutukuru, K. Carjova</i> Investigation of Flow Field Around the Pointed Cowl Air Intake at Mach 2.0	75
Keywords.....	83
Authors	84
